Benefit of the Month / Forum Network

The ACCO Forum Network is an organized group of ACCO (non-competing) contractors working together to share ideas. Members in the group work together to help each other improve their businesses - frequently acting like an informal "board of directors" for each other's company. During meetings, members review company policies, operating procedures, employee performance and related labor issues, among other data. For more info or to start a group email rocco@accohio.org

As of this writing, we have been invited to an interested party meeting with Rep. Schaffer for HB 339 on September 25...stay tuned.
