CareWorksComp

The next time you come an association event, look around at your fellow members. More than half of the people you see may be associate members. These are people who are essential to the HVACR industry and help enable our contractors provide consumers with quality products and services.

SAVE THE DATE

Associate members are essential to the local, state and national associations, offering sponsorships, devoting countless hours at committee meetings and volunteering at special events, and strengthening our industries in the process.

ACCO has always appreciated the dedication and enthusiasm of its associate members. We urge all members to get to know one another better, learn about each other's businesses and whenever possible, do business with other members.

ACCA Ohio is now the Air Conditioning Contractors of Ohio (ACCO). As a member of ACCO, you will have access to all the features of membership. Now more than ever, businesses are looking for opportunities to cut costs and reduce expenses. ACCO has several programs available only at the state level specifically designed to do just that. Many of our programs are discounted or enhanced for ACCO members only.

I am ACCO... "As an associate member the most important value I have received is the interaction with the local contractors."

Benefit of the Month / ACCO Forum Network

The ACCO Network is an organized group of contractors that meet to share best practices and ideas. Forum members have one common objective – help improve each other's business.

Members don't compete in the same geographic market, which allows for full disclosure in a confidential, trusting setting. Members of each group meet on a regular basis to review company policies and procedures, technology, safety, education and training, advertising, customer input, operations and other topics of interest.
